

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 03.09.2026 | Version: 1 | EN

## 3-amino-1,4-dihydro-1,2,4-triazol-5-one

3-amino-1,4-dihydro-1,2,4-triazol-5-one

CAS 1003-35-6

 $C_2H_4N_4O$ MOLAR MASS  
100.08LOGP  
-1.4

## HAZARD CLASSIFICATION (GHS / CLP)

## Warning

H302 H315 H319 H335

Non-harmonised classification (no entry in Annex VI to CLP) — assigned from aggregated ECHA C&L notifications; the H-statements require verification against the official source (ECHA C&L / manufacturer's data sheet).

## 1. Identification of the substance/mixture and of the company/undertaking

## 1.1 Substance name

## 1.1 IUPAC name

3-amino-1,4-dihydro-1,2,4-triazol-5-one

## 1.1 CAS number

1003-35-6

## 1.1 EC number

No data

## 1.1 PubChem CID

135481969

## 1.1 InChIKey

XOHBRLZSIGHDE-UHFFFAOYSA-N

## 1.1 SMILES

C1(=NNC(=O)N1)N

## 1.1 Molecular formula

 $C_2H_4N_4O$  <sup>[7]</sup>

## 1.1 Molar mass

100.08 g/mol <sup>[7]</sup>

## 1.1 Exact mass

100.0385 Da <sup>[7]</sup>

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION

Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH. MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

## Emergency telephone

112 (EU-wide emergency number)

## 2. Hazards identification

**GHS:** 

**PPE:** 

**Prohibitions:** 

### Warning

#### Hazard statements (H) <sup>[3][4]</sup>

|             |                                  |
|-------------|----------------------------------|
| <b>H302</b> | Harmful if swallowed             |
| <b>H315</b> | Causes skin irritation           |
| <b>H319</b> | Causes serious eye irritation    |
| <b>H335</b> | May cause respiratory irritation |

#### Precautionary statements (P) <sup>[3][4]</sup>

|                       |                                                                                                                                 |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>P261</b>           | Avoid breathing dust/fume/gas/mist/vapours/spray                                                                                |
| <b>P264</b>           | Wash thoroughly after handling                                                                                                  |
| <b>P270</b>           | Do not eat, drink or smoke when using this product                                                                              |
| <b>P271</b>           | Use only outdoors or in a well-ventilated area                                                                                  |
| <b>P280</b>           | Wear protective gloves/protective clothing/eye protection/face protection                                                       |
| <b>P301+P312</b>      | IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell                                                       |
| <b>P302+P352</b>      | IF ON SKIN: Wash with plenty of water                                                                                           |
| <b>P304+P340</b>      | IF INHALED: Remove person to fresh air and keep comfortable for breathing                                                       |
| <b>P305+P351+P338</b> | IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing |
| <b>P312</b>           | Call a POISON CENTER or doctor/physician if you feel unwell                                                                     |
| <b>P330</b>           | Rinse mouth                                                                                                                     |
| <b>P332+P313</b>      | If skin irritation occurs: Get medical advice/attention                                                                         |
| <b>P337+P313</b>      | If eye irritation persists: Get medical advice/attention                                                                        |
| <b>P403+P233</b>      | Store in a well-ventilated place: Keep container tightly closed                                                                 |
| <b>P405</b>           | Store locked up                                                                                                                 |
| <b>P501</b>           | Dispose of contents/container to an approved waste collection point                                                             |

**Non-harmonised classification (no entry in Annex VI to CLP) — assigned from aggregated ECHA C&L notifications; the H-statements require verification against the official source (ECHA C&L / manufacturer's data sheet).**

### 3. Composition/information on ingredients

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| <b>Substance type</b>    | pure substance                                                                        |
| <b>CAS Number</b>        | 1003-35-6                                                                             |
| <b>Molecular formula</b> | C <sub>2</sub> H <sub>4</sub> N <sub>4</sub> O                                        |
| <b>Concentration</b>     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

### 4. First aid measures

#### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). <sup>[1][2][10]</sup>

#### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). <sup>[1][2][10]</sup>

#### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. If irritation persists — consult an ophthalmologist. <sup>[1][2][10]</sup>

#### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. <sup>[1][2][10]</sup>

#### Symptoms and effects

nausea, vomiting, diarrhoea; cough, shortness of breath, headache, dizziness; skin redness and irritation; eye irritation and watering. <sup>[3]</sup>

#### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

### 5. Firefighting measures

|                                       |                                                                                         |
|---------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam.          |
| <b>Unsuitable extinguishing media</b> | No specific restrictions.                                                               |
| <b>Specific hazards</b>               | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> . <sup>[11]</sup> |
| <b>Advice for firefighters</b>        | Use self-contained breathing apparatus (SCBA). Full protective suit.                    |

### 6. Accidental release measures

|                                                |                                                                                                                                                                    |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                    | Use personal protective equipment (see Section 8). Avoid breathing dust/vapours. <sup>[1][2][10]</sup>                                                             |
| <b>Environmental precautions</b>               | Prevent entry into sewers, groundwater and surface water. <sup>[1][2][10]</sup>                                                                                    |
| <b>Methods for containment and cleaning up</b> | Absorb with inert material (sand, vermiculite, diatomaceous earth) and collect into sealed, labelled containers. Do not release into drains. <sup>[1][2][10]</sup> |
| <b>Related sections</b>                        | 8; 13                                                                                                                                                              |

### 7. Handling and storage

|                            |                                                                                                                          |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions</b>         | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <sup>[1][2][10]</sup> |
| <b>Storage temperature</b> | Store at room temperature (15-25°C) or as indicated on the label. <sup>[1][2][10]</sup>                                  |

|                        |                                            |
|------------------------|--------------------------------------------|
| Humidity               | Store in a dry place (<60% RH). [1][2][10] |
| Light                  | Protect from direct sunlight. [1][2][10]   |
| Incompatible materials | Strong oxidizers. [11]                     |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                    |                                                                                                                                                    |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| OEL — NDS (Poland) | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| OEL (EU)           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| DNEL               | No data available.                                                                                                                                 |
| PNEC               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE) [5][6][12]

|                                                                                                                                                                                                     |                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                           |

| Molecular formula                                 | C <sub>2</sub> H <sub>4</sub> N <sub>4</sub> O <sup>[7]</sup> |        |
| Lipinski rule (RO5)                               | PASS                                                          |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Reactivity             | Stable under normal storage and handling conditions.                    |
| Chemical stability     | Thermally stable under recommended conditions.                          |
| Hazardous reactions    | No hazardous reactions known under normal conditions.                   |
| Conditions to avoid    | High temperatures, direct sunlight, moisture.                           |
| Incompatible materials | Strong oxidizers.                                                       |
| Decomposition products | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> . |

## 11. Toxicological information

|                                       |                                                                                                                                                   |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|

| LC50 (inhalation)                     | No data available.                                                                                                                                |
| Skin irritation                       | Category 2 — skin irritation.                                                                                                                     |
| Eye irritation                        | Category 2 — eye irritation.                                                                                                                      |
| Sensitisation                         | No data available.                                                                                                                                |
| Mutagenicity                          | No data available.                                                                                                                                |
| Carcinogenicity                       | No data available.                                                                                                                                |
| IARC classification (carcinogenicity) | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| Reproductive toxicity                 | No data available.                                                                                                                                |
| STOT — single exposure                | Category 3 (H335): May cause respiratory irritation. <sup>[3]</sup>                                                                               |
| STOT — repeated exposure              | No data available.                                                                                                                                |
| Aspiration hazard                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                          |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | No data available.                                                                                                                                       |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                                       |
| <b>Bioaccumulative potential</b>       | log Kow = -1.4 <sup>[8]</sup> . Low bioaccumulation potential (log Kow < 4.5 — PBT/vPvB screening criterion per ECHA Guidance R.11). <sup>[13][14]</sup> |
| <b>Mobility in soil</b>                | No data available.                                                                                                                                       |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                                    |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                          |

## 13. Disposal considerations

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                              |
| <b>Waste code (EWC)</b> | 16 05 06* — Laboratory and analytical chemicals (np. chemical reagents) zawierające substancje niebezpieczne. EWC code verification required. <sup>[9]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be treated as hazardous waste.                                                                |

## 14. Transport information

|                             |                                                                                                                                                                                                                                                         |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>            | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                                                                                                      |
| <b>Environmental hazard</b> | Environmental hazard for transport: not verified. Non-harmonised classification (outside CLP Annex VI) — verify aquatic toxicity (Section 12) and do NOT assume marine pollutant marking is not required; confirm per ADR 2.2.9 / IMDG before shipping. |
| <b>Special precautions</b>  | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                                                                                                             |
| <b>CN/HS code</b>           | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                                                                                                                |
| <b>Notes</b>                | Transport classification not verified. Do not assume the absence of restrictions — check ADR/IMDG/IATA before shipping.                                                                                                                                 |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: supplier self-classification under Art. 4(3) CLP — no harmonised entry in Annex VI. Entries with an entry-into-force date after 03.09.2026 were omitted as future (not yet applicable).

Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).

| <b>P403+P233</b>      | Store in a well-ventilated place: Keep container tightly closed                                                                 |
| <b>P405</b>           | Store locked up                                                                                                                 |
| <b>P501</b>           | Dispose of contents/container to an approved waste collection point                                                             |

## Abbreviations

|              |                                                                                     |
|--------------|-------------------------------------------------------------------------------------|
| <b>ADR</b>   | European Agreement concerning the International Carriage of Dangerous Goods by Road |
| <b>ATE</b>   | Acute Toxicity Estimate                                                             |
| <b>CAS</b>   | Chemical Abstracts Service                                                          |
| <b>CLP</b>   | Classification, Labelling and Packaging (Reg. (EC) 1272/2008)                       |
| <b>CMR</b>   | Carcinogenic, Mutagenic, toxic to Reproduction                                      |
| <b>DNEL</b>  | Derived No-Effect Level                                                             |
| <b>EC</b>    | European Community number                                                           |
| <b>EPI</b>   | Personal protective equipment                                                       |
| <b>GHS</b>   | Globally Harmonized System                                                          |
| <b>IATA</b>  | International Air Transport Association                                             |
| <b>IMDG</b>  | International Maritime Dangerous Goods Code                                         |
| <b>SDS</b>   | Safety Data Sheet                                                                   |
| <b>LC50</b>  | Lethal Concentration, 50%                                                           |
| <b>LD50</b>  | Lethal Dose, 50%                                                                    |
| <b>NDS</b>   | Maximum admissible concentration (workplace, PL)                                    |
| <b>NDSch</b> | Short-term exposure limit (PL)                                                      |
| <b>OEL</b>   | Occupational Exposure Limit                                                         |
| <b>PBT</b>   | Persistent, Bioaccumulative and Toxic                                               |
| <b>PNEC</b>  | Predicted No-Effect Concentration                                                   |

|              |                                                                                            |
|--------------|--------------------------------------------------------------------------------------------|
| <b>REACH</b> | Registration, Evaluation, Authorisation and Restriction of Chemicals (Reg. (EC) 1907/2006) |
| <b>STOT</b>  | Specific Target Organ Toxicity                                                             |
| <b>SVHC</b>  | Substance of Very High Concern                                                             |
| <b>TPSA</b>  | Topological Polar Surface Area                                                             |
| <b>vPvB</b>  | very Persistent and very Bioaccumulative                                                   |

#### Version history

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| <b>v1 (03.09.2026)</b> | Based on supplier self-classification (ECHA C&L notifications; no harmonised entry in Annex VI). |
