

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 02.09.2026 | Version: 1 | EN

## chlorek strontu

strontium dichloride

CAS 10476-85-4

Cl<sub>2</sub>Sr

EC 233-971-6

MOLAR MASS  
158.52

## HAZARD CLASSIFICATION (GHS / CLP)

## Warning

H318

H341

Non-harmonised classification (no entry in Annex VI to CLP) — assigned from aggregated ECHA C&L notifications; the H-statements require verification against the official source (ECHA C&L / manufacturer's data sheet).

## 1. Identification of the substance/mixture and of the company/undertaking

|                       |                                   |
|-----------------------|-----------------------------------|
| 1.1 Substance name    | chlorek strontu                   |
| 1.1 IUPAC name        | strontium dichloride              |
| 1.1 CAS number        | 10476-85-4                        |
| 1.1 EC number         | 233-971-6                         |
| 1.1 PubChem CID       | 5362485                           |
| 1.1 InChIKey          | AHBGXTDRMVNFER-UHFFFAOYSA-L       |
| 1.1 SMILES            | [Cl-].[Cl-].[Sr+2]                |
| 1.1 Molecular formula | Cl <sub>2</sub> Sr <sup>[7]</sup> |
| 1.1 Molar mass        | 158.52 g/mol <sup>[7]</sup>       |
| 1.1 Exact mass        | 157.8433 Da <sup>[7]</sup>        |

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION

Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH. MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

Emergency telephone 112 (EU-wide emergency number)

## 2. Hazards identification

**Warning**

### Hazard statements (H) <sup>[3][4]</sup>

|             |                                      |
|-------------|--------------------------------------|
| <b>H318</b> | Causes serious eye damage            |
| <b>H341</b> | Suspected of causing genetic defects |

### Precautionary statements (P) <sup>[3][4]</sup>

|                       |                                                                                                                                 |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>P201</b>           | Obtain special instructions before use                                                                                          |
| <b>P202</b>           | Do not handle until all safety precautions have been read and understood                                                        |
| <b>P261</b>           | Avoid breathing dust/fume/gas/mist/vapours/spray                                                                                |
| <b>P280</b>           | Wear protective gloves/protective clothing/eye protection/face protection                                                       |
| <b>P305+P351+P338</b> | IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing |
| <b>P308+P313</b>      | IF exposed or concerned: Get medical advice/attention                                                                           |
| <b>P310</b>           | Immediately call a POISON CENTER or doctor/physician                                                                            |
| <b>P405</b>           | Store locked up                                                                                                                 |
| <b>P501</b>           | Dispose of contents/container to an approved waste collection point                                                             |

**Non-harmonised classification (no entry in Annex VI to CLP) — assigned from aggregated ECHA C&L notifications; the H-statements require verification against the official source (ECHA C&L / manufacturer's data sheet).**

### 3. Composition/information on ingredients

|                   |                                                                                       |
|-------------------|---------------------------------------------------------------------------------------|
| Substance type    | pure substance                                                                        |
| CAS Number        | 10476-85-4                                                                            |
| EC number         | 233-971-6                                                                             |
| Molecular formula | Cl <sub>2</sub> Sr                                                                    |
| Concentration     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

### 4. First aid measures

#### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). [\[1\]](#)[\[2\]](#)[\[10\]](#)

#### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). [\[1\]](#)[\[2\]](#)[\[10\]](#)

#### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. Call an ophthalmologist immediately. [\[1\]](#)[\[2\]](#)[\[10\]](#)

#### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. [\[1\]](#)[\[2\]](#)[\[10\]](#)

#### Symptoms and effects

eye irritation and watering. [\[3\]](#)

#### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

### 5. Firefighting measures

|                                |                                                                                |
|--------------------------------|--------------------------------------------------------------------------------|
| Suitable extinguishing media   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam. |
| Unsuitable extinguishing media | No specific restrictions.                                                      |
| Specific hazards               | Thermal decomposition products: HCl (hydrogen chloride). <a href="#">[11]</a>  |
| Advice for firefighters        | Use self-contained breathing apparatus (SCBA). Full protective suit.           |

### 6. Accidental release measures

|                                         |                                                                                                                                                                                                   |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions                    | Use personal protective equipment (see Section 8). Avoid breathing dust. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a>                                                             |
| Environmental precautions               | Prevent entry into sewers, groundwater and surface water. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a>                                                                            |
| Methods for containment and cleaning up | Collect mechanically into suitable containers. Absorption: sand, vermiculite, diatomaceous earth. Do not sweep dry (dust formation). <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a> |
| Related sections                        | 8; 13                                                                                                                                                                                             |

### 7. Handling and storage

|                     |                                                                                                                                                                 |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions         | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a> |
| Storage temperature | Store at room temperature (15-25°C) or as indicated on the label. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a>                                  |
| Humidity            | Store in a dry place (<60% RH). <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[10]</a>                                                                    |

**Light**

Protect from direct sunlight. [1][2][10]

**Incompatible materials**

Strong oxidizers, strong acids, strong bases. [11]

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                           |                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>OEL — NDS (Poland)</b> | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| <b>OEL (EU)</b>           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| <b>DNEL</b>               | No data available.                                                                                                                                 |
| <b>PNEC</b>               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE) [5][6][14]

|                                                                                                                                                                                         |                                                                                                                                                                      |                                                                                                                                              |                                                                                                                                                                      |

## 9. Physical and chemical properties

| Property (item 9.1)                    | Value                         | Source |
|----------------------------------------|-------------------------------|--------|
| <b>Physical state</b>                  | Solid                         |        |
| <b>Colour</b>                          | No data available.            |        |
| <b>Odour</b>                           | No data available.            |        |
| <b>pH (1% aqueous solution)</b>        | No data available.            |        |
| <b>Melting point</b>                   | 874°C [8]                     |        |
| <b>Boiling point</b>                   | 1250°C [7]                    |        |
| <b>Flash point</b>                     | Not applicable (REACH 9.1(h)) |        |
| <b>Flammability</b>                    | No data available.            |        |
| <b>Lower and upper explosion limit</b> | Not applicable (REACH 9.1(g)) |        |
| <b>Density (20°C)</b>                  | 3.052 g/cm <sup>3</sup> [7]   |        |
| <b>Vapour pressure</b>                 | No data available.            |        |
| <b>Relative vapour density</b>         | Not applicable (REACH 9.1(q)) |        |
| <b>Kinematic viscosity</b>             | Not applicable (REACH 9.1(l)) |        |
| <b>Auto-ignition temperature</b>       | No data available.            |        |
| <b>Decomposition temperature</b>       | Not applicable                |        |
| <b>Rozpuszcz. w wodzie</b>             | No data available.            |        |

| Property (item 9.1)             | Value                                                                                                                                                                | Source |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| <b>Particle characteristics</b> | The particle size distribution has not been determined for this commercial form – required under Annex II 9.1(r); to be completed from the supplier's specification. |        |
| <b>log Kow (XLogP3)</b>         | Not applicable (REACH 9.1(n))                                                                                                                                        |        |
| <b>Molar mass</b>               | 158.52 g/mol <sup>[7]</sup>                                                                                                                                          |        |
| <b>Molecular formula</b>        | Cl <sub>2</sub> Sr <sup>[7]</sup>                                                                                                                                    |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                               |                                                          |
|-------------------------------|----------------------------------------------------------|
| <b>Reactivity</b>             | Stable under normal storage and handling conditions.     |
| <b>Chemical stability</b>     | Thermally stable under recommended conditions.           |
| <b>Hazardous reactions</b>    | No hazardous reactions known under normal conditions.    |
| <b>Conditions to avoid</b>    | High temperatures, direct sunlight, moisture.            |
| <b>Incompatible materials</b> | Strong oxidizers, strong acids, strong bases.            |
| <b>Decomposition products</b> | Thermal decomposition products: HCl (hydrogen chloride). |

## 11. Toxicological information

|                                              |                                                                                                                                                   |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>LD50 (oral)</b>                           | No data available.                                                                                                                                |
| <b>LD50 (dermal)</b>                         | No data available.                                                                                                                                |
| <b>LC50 (inhalation)</b>                     | No data available.                                                                                                                                |
| <b>Skin irritation</b>                       | No data available.                                                                                                                                |
| <b>Eye irritation</b>                        | Category 1 — serious eye damage.                                                                                                                  |
| <b>Sensitisation</b>                         | No data available.                                                                                                                                |
| <b>Mutagenicity</b>                          | Classification from aggregated ECHA C&L notifications (non-harmonised) — requires verification; no entry in Annex VI to CLP.                      |
| <b>Carcinogenicity</b>                       | No data available.                                                                                                                                |
| <b>IARC classification (carcinogenicity)</b> | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| <b>Reproductive toxicity</b>                 | No data available.                                                                                                                                |
| <b>STOT — single exposure</b>                | No data available.                                                                                                                                |
| <b>STOT — repeated exposure</b>              | No data available.                                                                                                                                |
| <b>Aspiration hazard</b>                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                |
|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | EC <sub>50</sub> (Daphnia): 94 mg/L (Daphnia magna, 48 h). EC <sub>50</sub> (algae): 160 mg/L (Raphidocelis subcapitata, 96 h) <sup>[15]</sup> |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                             |
| <b>Bioaccumulative potential</b>       | No data available.                                                                                                                             |
| <b>Mobility in soil</b>                | No data available.                                                                                                                             |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                          |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                |

## 13. Disposal considerations

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                              |
| <b>Waste code (EWC)</b> | 16 05 06* — Laboratory and analytical chemicals (np. chemical reagents) zawierające substancje niebezpieczne. EWC code verification required. <sup>[9]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be treated as hazardous waste.                                                                |

## 14. Transport information

|                             |                                                                                                                                                                                                                                                         |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>            | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                                                                                                      |
| <b>Environmental hazard</b> | Environmental hazard for transport: not verified. Non-harmonised classification (outside CLP Annex VI) — verify aquatic toxicity (Section 12) and do NOT assume marine pollutant marking is not required; confirm per ADR 2.2.9 / IMDG before shipping. |
| <b>Special precautions</b>  | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                                                                                                             |
| <b>CN/HS code</b>           | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                                                                                                                |
| <b>Notes</b>                | Transport classification not verified. Do not assume the absence of restrictions — check ADR/IMDG/IATA before shipping.                                                                                                                                 |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: supplier self-classification under Art. 4(3) CLP — no harmonised entry in Annex VI. Entries with an entry-into-force date after 02.09.2026 were omitted as future (not yet applicable).

Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).

| <b>LD50</b>  | Lethal Dose, 50%                                                                           |
| <b>NDS</b>   | Maximum admissible concentration (workplace, PL)                                           |
| <b>NDSCh</b> | Short-term exposure limit (PL)                                                             |
| <b>OEL</b>   | Occupational Exposure Limit                                                                |
| <b>PBT</b>   | Persistent, Bioaccumulative and Toxic                                                      |
| <b>PNEC</b>  | Predicted No-Effect Concentration                                                          |
| <b>REACH</b> | Registration, Evaluation, Authorisation and Restriction of Chemicals (Reg. (EC) 1907/2006) |
| <b>STOT</b>  | Specific Target Organ Toxicity                                                             |
| <b>SVHC</b>  | Substance of Very High Concern                                                             |
| <b>TPSA</b>  | Topological Polar Surface Area                                                             |
| <b>vPvB</b>  | very Persistent and very Bioaccumulative                                                   |

## Version history

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| <b>v1 (02.09.2026)</b> | Based on supplier self-classification (ECHA C&L notifications; no harmonised entry in Annex VI). |
|------------------------|--------------------------------------------------------------------------------------------------|
