

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 02.09.2026 | Version: 1 | EN

## 1,5,7-triazabicyklo[4.4.0]dek-5-en

3,4,6,7,8,9-hexahydro-2H-pyrimido[1,2-a]pyrimidine

CAS 5807-14-7

C<sub>7</sub>H<sub>13</sub>N<sub>3</sub>

EC 227-367-1

MOLAR MASS  
139.20LOGP  
-0.3

## HAZARD CLASSIFICATION (GHS / CLP)

Danger

H314

Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).

## 1. Identification of the substance/mixture and of the company/undertaking

|                       |                                                              |
|-----------------------|--------------------------------------------------------------|
| 1.1 Substance name    | 1,5,7-triazabicyklo[4.4.0]dek-5-en                           |
| 1.1 IUPAC name        | 3,4,6,7,8,9-hexahydro-2H-pyrimido[1,2-a]pyrimidine           |
| 1.1 CAS number        | 5807-14-7                                                    |
| 1.1 EC number         | 227-367-1                                                    |
| 1.1 PubChem CID       | 79873                                                        |
| 1.1 InChIKey          | FVKFHMNJTHKMRX-UHFFFAOYSA-N                                  |
| 1.1 SMILES            | C1CNC2=NCCCN2C1                                              |
| 1.1 Molecular formula | C <sub>7</sub> H <sub>13</sub> N <sub>3</sub> <sup>[7]</sup> |
| 1.1 Molar mass        | 139.20 g/mol <sup>[7]</sup>                                  |
| 1.1 Exact mass        | 139.1109 Da <sup>[7]</sup>                                   |

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION

Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH. MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

Emergency telephone 112 (EU-wide emergency number)

## 2. Hazards identification

**Danger**

### Hazard statements (H) <sup>[3][4]</sup>

**H314** Causes severe skin burns and eye damage

### Precautionary statements (P) <sup>[3][4]</sup>

**P260** Do not breathe dust/fume/gas/mist/vapours/spray

**P264** Wash thoroughly after handling

**P280** Wear protective gloves/protective clothing/eye protection/face protection

**P301+P330+P331** IF SWALLOWED: Rinse mouth; Do NOT induce vomiting

**P303+P361+P353** IF ON SKIN (or hair): Take off immediately all contaminated clothing; Rinse skin with water or shower

**P304+P340** IF INHALED: Remove person to fresh air and keep comfortable for breathing

**P305+P351+P338** IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing

**P310** Immediately call a POISON CENTER or doctor/physician

**P321** Specific treatment

**P363** Wash contaminated clothing before reuse

**P405** Store locked up

**P501** Dispose of contents/container to an approved waste collection point

**Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).**

### 3. Composition/information on ingredients

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| <b>Substance type</b>    | pure substance                                                                        |
| <b>CAS Number</b>        | 5807-14-7                                                                             |
| <b>EC number</b>         | 227-367-1                                                                             |
| <b>Molecular formula</b> | C <sub>7</sub> H <sub>13</sub> N <sub>3</sub>                                         |
| <b>Concentration</b>     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

### 4. First aid measures

#### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). [\[1\]](#)[\[2\]](#)[\[11\]](#)

#### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). Call a physician immediately. [\[1\]](#)[\[2\]](#)[\[11\]](#)

#### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. If irritation persists — consult an ophthalmologist. [\[1\]](#)[\[2\]](#)[\[11\]](#)

#### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. [\[1\]](#)[\[2\]](#)[\[11\]](#)

#### Symptoms and effects

skin redness and irritation. [\[3\]](#)

#### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

### 5. Firefighting measures

|                                       |                                                                                              |
|---------------------------------------|----------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam.               |
| <b>Unsuitable extinguishing media</b> | No specific restrictions.                                                                    |
| <b>Specific hazards</b>               | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> . <a href="#">[12]</a> |
| <b>Advice for firefighters</b>        | Use self-contained breathing apparatus (SCBA). Full protective suit.                         |

### 6. Accidental release measures

|                                                |                                                                                                                                                                                                           |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                    | Use personal protective equipment (see Section 8). Avoid breathing dust/vapours. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a>                                                             |
| <b>Environmental precautions</b>               | Prevent entry into sewers, groundwater and surface water. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a>                                                                                    |
| <b>Methods for containment and cleaning up</b> | Absorb with inert material (sand, vermiculite, diatomaceous earth) and collect into sealed, labelled containers. Do not release into drains. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a> |
| <b>Related sections</b>                        | 8; 13                                                                                                                                                                                                     |

### 7. Handling and storage

|                            |                                                                                                                                                                 |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions</b>         | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a> |
| <b>Storage temperature</b> | Store at room temperature (15-25°C) or as indicated on the label. <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a>                                  |
| <b>Humidity</b>            | Store in a dry place (<60% RH). <a href="#">[1]</a> <a href="#">[2]</a> <a href="#">[11]</a>                                                                    |

|                        |                                                     |
|------------------------|-----------------------------------------------------|
| Light                  | Protect from direct sunlight. <sup>[1][2][11]</sup> |
| Incompatible materials | Strong oxidizers. <sup>[12]</sup>                   |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                    |                                                                                                                                                    |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| OEL — NDS (Poland) | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| OEL (EU)           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| DNEL               | No data available.                                                                                                                                 |
| PNEC               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE) <sup>[5][6][13]</sup>

|                                                                                                                                                                                               |                                                                                                                                                                           |                                                                                                                                                   |                                                                                                                                                                                                 |                                                                                                                                                                            |

## 9. Physical and chemical properties

| Property (item 9.1)             | Value              | Source |
|---------------------------------|--------------------|--------|
| Physical state                  | No data available. |        |
| Colour                          | No data available. |        |
| Odour                           | No data available. |        |
| pH (1% aqueous solution)        | No data available. |        |
| Melting point                   | No data available. |        |
| Boiling point                   | No data available. |        |
| Flash point                     | No data available. |        |
| Flammability                    | No data available. |        |
| Lower and upper explosion limit | No data available. |        |
| Density (20°C)                  | No data available. |        |
| Vapour pressure                 | No data available. |        |
| Relative vapour density         | No data available. |        |
| Kinematic viscosity             | No data available. |        |
| Auto-ignition temperature       | No data available. |        |
| Decomposition temperature       | Not applicable     |        |
| Rozpuszcz. w wodzie             | No data available. |        |
| Particle characteristics        | No data available. |        |

| Property (item 9.1)                               | Value                                                        | Source |
|---------------------------------------------------|--------------------------------------------------------------|--------|
| Partition coefficient n-octanol/water (log value) | -0.3 <sup>[8]</sup>                                          |        |
| Molar mass                                        | 139.20 g/mol <sup>[7]</sup>                                  |        |
| Molecular formula                                 | C <sub>7</sub> H <sub>13</sub> N <sub>3</sub> <sup>[7]</sup> |        |
| Lipinski rule (RO5)                               | PASS                                                         |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Reactivity             | Stable under normal storage and handling conditions.                    |
| Chemical stability     | Thermally stable under recommended conditions.                          |
| Hazardous reactions    | No hazardous reactions known under normal conditions.                   |
| Conditions to avoid    | High temperatures, direct sunlight, moisture.                           |
| Incompatible materials | Strong oxidizers.                                                       |
| Decomposition products | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> . |

## 11. Toxicological information

|                                       |                                                                                                                                                   |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| LD50 (oral)                           | No data available.                                                                                                                                |
| LD50 (dermal)                         | No data available.                                                                                                                                |
| LC50 (inhalation)                     | No data available.                                                                                                                                |
| Skin irritation                       | Category 1 (H314) — corrosive; sub-category (1A/1B/1C) per supplier self-classification (no harmonised Annex VI entry). <sup>[3]</sup>            |
| Eye irritation                        | Serious eye damage — covered by the corrosive classification (H314; CLP Annex I 3.3.2.1). <sup>[3]</sup>                                          |
| Sensitisation                         | No data available.                                                                                                                                |
| Mutagenicity                          | No data available.                                                                                                                                |
| Carcinogenicity                       | No data available.                                                                                                                                |
| IARC classification (carcinogenicity) | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| Reproductive toxicity                 | No data available.                                                                                                                                |
| STOT — single exposure                | No data available.                                                                                                                                |
| STOT — repeated exposure              | No data available.                                                                                                                                |
| Aspiration hazard                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                          |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | No data available.                                                                                                                                       |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                                       |
| <b>Bioaccumulative potential</b>       | log Kow = -0.3 <sup>[8]</sup> . Low bioaccumulation potential (log Kow < 4.5 — PBT/vPvB screening criterion per ECHA Guidance R.11). <sup>[14][15]</sup> |
| <b>Mobility in soil</b>                | No data available.                                                                                                                                       |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                                    |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                          |

## 13. Disposal considerations

|                         |                                                                                                                                                               |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                               |
| <b>Waste code (EWC)</b> | 16 05 06* — Laboratory and analytical chemicals (np. chemical reagents) zawierające substancje niebezpieczne. EWC code verification required. <sup>[10]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be treated as hazardous waste.                                                                 |

## 14. Transport information

Class 8 — Corrosive substances

|                               |                                                                                                                                                                                                                                                         |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>              | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                                                                                                      |
| <b>Transport hazard class</b> | Suggested from GHS classification — VERIFICATION REQUIRED.                                                                                                                                                                                              |
| <b>Environmental hazard</b>   | Environmental hazard for transport: not verified. Non-harmonised classification (outside CLP Annex VI) — verify aquatic toxicity (Section 12) and do NOT assume marine pollutant marking is not required; confirm per ADR 2.2.9 / IMDG before shipping. |
| <b>Special precautions</b>    | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                                                                                                             |
| <b>CN/HS code</b>             | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                                                                                                                |
| <b>Notes</b>                  | NOTE: the GHS classification indicates the substance may be subject to dangerous goods transport regulations (ADR/IMDG/IATA). Do NOT assume absence of restrictions — verify the UN number before shipping.                                             |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: supplier self-classification under Art. 4(3) CLP — no harmonised entry in Annex VI. Entries with an entry-into-force date after 02.09.2026 were omitted as future (not yet applicable).

Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).

## Full text of H statements

**H314** Causes severe skin burns and eye damage

## Full text of P statements

**P260** Do not breathe dust/fume/gas/mist/vapours/spray

**P264** Wash thoroughly after handling

**P280** Wear protective gloves/protective clothing/eye protection/face protection

**P301+P330+P331** IF SWALLOWED: Rinse mouth; Do NOT induce vomiting

**P303+P361+P353** IF ON SKIN (or hair): Take off immediately all contaminated clothing; Rinse skin with water or shower

**P304+P340** IF INHALED: Remove person to fresh air and keep comfortable for breathing

**P305+P351+P338** IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing

**P310** Immediately call a POISON CENTER or doctor/physician

**P321** Specific treatment

**P363** Wash contaminated clothing before reuse

**P405** Store locked up

**P501** Dispose of contents/container to an approved waste collection point

**NFPA 704** (supplementary information — NFPA/USA system; not a required element of an EU safety data sheet under REACH Annex II)

**Legal notice:** This document was generated automatically from data provided by PubChem (NIH), ECHA, NIST WebBook, ChemSpider (RSC), Wikidata and other public databases. It DOES NOT REPLACE an approved Safety Data Sheet (SDS) compliant with Regulation (EC) No 1907/2006 (REACH). Before using the substance, verify the data against the manufacturer's current SDS.

**Generator:** Document generated automatically from supplier self-classification (ECHA C&L notifications) and public physicochemical databases.

**Author:** [www.MolGod.org](http://www.MolGod.org) — platform for automated safety data sheets (SDS).
