

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 03.09.2026 | Version: 1 | EN

## (2S,3R)-2-amino-3-hydroxybutanoic acid

(2S,3R)-2-amino-3-hydroxybutanoic acid

CAS 72-19-5

C<sub>4</sub>H<sub>9</sub>NO<sub>3</sub>

EC 200-774-1

MOLAR MASS  
119.12LOGP  
-2.9

## HAZARD CLASSIFICATION (GHS / CLP)

CLP classification not established — no harmonised entry (Annex VI), and the provenance of the self-classification has not been established. Verification in the ECHA C&L inventory / the manufacturer's safety data sheet is required. Do NOT assume the absence of hazard.

## 1. Identification of the substance/mixture and of the company/undertaking

|                       |                                                              |
|-----------------------|--------------------------------------------------------------|
| 1.1 Substance name    | —                                                            |
| 1.1 IUPAC name        | (2S,3R)-2-amino-3-hydroxybutanoic acid                       |
| 1.1 CAS number        | 72-19-5                                                      |
| 1.1 EC number         | 200-774-1                                                    |
| 1.1 PubChem CID       | 6288                                                         |
| 1.1 InChIKey          | AYFVYJQAPQTCCC-GBXIJSLDSA-N                                  |
| 1.1 SMILES            | C[C@H]([C@@H](C(=O)O)N)O                                     |
| 1.1 Molecular formula | C <sub>4</sub> H <sub>9</sub> NO <sub>3</sub> <sup>[7]</sup> |
| 1.1 Molar mass        | 119.12 g/mol <sup>[7]</sup>                                  |
| 1.1 Exact mass        | 119.0582 Da <sup>[7]</sup>                                   |

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH.  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

Emergency telephone 112 (EU-wide emergency number)

The number above is the Polish poison centre (CIT, Lodz, 24/7). It is NOT the poison centre designated for your country. Under Article 45 of Regulation (EC) No 1272/2008 the competent body is the centre designated in the country of placing on the market — consult it before use.

## 2. Hazards identification

CLP classification not established — no harmonised entry (Annex VI), and the provenance of the self-classification has not been established. Verification in the ECHA C&L inventory / the manufacturer's safety data sheet is required. Do NOT assume the absence of hazard.

### 3. Composition/information on ingredients

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| <b>Substance type</b>    | pure substance                                                                        |
| <b>CAS Number</b>        | 72-19-5                                                                               |
| <b>EC number</b>         | 200-774-1                                                                             |
| <b>Molecular formula</b> | C <sub>4</sub> H <sub>9</sub> NO <sub>3</sub>                                         |
| <b>Concentration</b>     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

### 4. First aid measures

#### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). <sup>[1][2]</sup>

#### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). <sup>[1][2]</sup>

#### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. If irritation persists — consult an ophthalmologist. <sup>[1][2]</sup>

#### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. <sup>[1][2]</sup>

#### Symptoms and effects

No specific symptoms described in the literature. <sup>[1][2]</sup>

#### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

### 5. Firefighting measures

|                                       |                                                                                |
|---------------------------------------|--------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam. |
| <b>Unsuitable extinguishing media</b> | No specific restrictions.                                                      |
| <b>Specific hazards</b>               | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> .        |
| <b>Advice for firefighters</b>        | Use self-contained breathing apparatus (SCBA). Full protective suit.           |

### 6. Accidental release measures

|                                                |                                                                                                                                                        |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                    | Use personal protective equipment (see Section 8). Avoid breathing dust. <sup>[1][2]</sup>                                                             |
| <b>Environmental precautions</b>               | Prevent entry into sewers, groundwater and surface water. <sup>[1][2]</sup>                                                                            |
| <b>Methods for containment and cleaning up</b> | Collect mechanically into suitable containers. Absorption: sand, vermiculite, diatomaceous earth. Do not sweep dry (dust formation). <sup>[1][2]</sup> |
| <b>Related sections</b>                        | 8; 13                                                                                                                                                  |

### 7. Handling and storage

|                            |                                                                                                                      |
|----------------------------|----------------------------------------------------------------------------------------------------------------------|
| <b>Precautions</b>         | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <sup>[1][2]</sup> |
| <b>Storage temperature</b> | Store at room temperature (15-25°C) or as indicated on the label. <sup>[1][2]</sup>                                  |
| <b>Humidity</b>            | Store in a dry place (<60% RH). <sup>[1][2]</sup>                                                                    |
| <b>Light</b>               | Protect from direct sunlight. <sup>[1][2]</sup>                                                                      |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                           |                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>OEL — NDS (Poland)</b> | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| <b>OEL (EU)</b>           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| <b>DNEL</b>               | No data available.                                                                                                                                 |
| <b>PNEC</b>               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE)

**Chemical-resistant protective gloves**  
EN ISO 374-1:2016+A1:2018  
Selection of PPE requires the hazard classification to be established — there is no basis for specifying a glove material. Use PPE according to the supplier's safety data sheet and the workplace risk assessment.

**Closed safety spectacles or goggles**  
EN ISO 16321-1:2022 / EN 166:2001

**Closed safety footwear with toe protection**  
EN ISO 20345:2022 (S2/S3)

## 9. Physical and chemical properties

| Property (item 9.1)                    | Value                                             | Source |
|----------------------------------------|---------------------------------------------------|--------|
| <b>Physical state</b>                  | Solid                                             |        |
| <b>Colour</b>                          | No data available.                                |        |
| <b>Odour</b>                           | No data available.                                |        |
| <b>pH (1% aqueous solution)</b>        | No data available.                                |        |
| <b>Melting point</b>                   | 256°C (experimental data) <sup>[7]</sup>          |        |
| <b>Boiling point</b>                   | No data available.                                |        |
| <b>Flash point</b>                     | Not applicable (REACH 9.1(h))                     |        |
| <b>Flammability</b>                    | No data available.                                |        |
| <b>Lower and upper explosion limit</b> | Not applicable (REACH 9.1(g))                     |        |
| <b>Density (20°C)</b>                  | No data available.                                |        |
| <b>Vapour pressure</b>                 | 0 kPa (0 mmHg) (experimental data) <sup>[7]</sup> |        |
| <b>Relative vapour density</b>         | Not applicable (REACH 9.1(q))                     |        |
| <b>Kinematic viscosity</b>             | Not applicable (REACH 9.1(l))                     |        |
| <b>Auto-ignition temperature</b>       | No data available.                                |        |
| <b>Decomposition temperature</b>       | Not applicable                                    |        |

| Property (item 9.1)                               | Value                                                                                                                                                                | Source |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Rozpuszcz. w wodzie                               | 97 g/L, 25°C [7]                                                                                                                                                     |        |
| Particle characteristics                          | The particle size distribution has not been determined for this commercial form – required under Annex II 9.1(r); to be completed from the supplier's specification. |        |
| Partition coefficient n-octanol/water (log value) | -2.9 [8][12]                                                                                                                                                         |        |
| Molar mass                                        | 119.12 g/mol [7]                                                                                                                                                     |        |
| Molecular formula                                 | C <sub>4</sub> H <sub>9</sub> NO <sub>3</sub> [7]                                                                                                                    |        |
| Lipinski rule (RO5)                               | PASS                                                                                                                                                                 |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Reactivity             | Stable under normal storage and handling conditions.                    |
| Chemical stability     | Thermally stable under recommended conditions.                          |
| Hazardous reactions    | No hazardous reactions known under normal conditions.                   |
| Conditions to avoid    | High temperatures, direct sunlight, moisture.                           |
| Incompatible materials | Strong oxidizers, strong bases, Base metals (hydrogen evolution).       |
| Decomposition products | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> . |

## 11. Toxicological information

|                                       |                                                                                                                                                   |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| LD50 (oral)                           | No data available.                                                                                                                                |
| LD50 (dermal)                         | No data available.                                                                                                                                |
| LC50 (inhalation)                     | No data available.                                                                                                                                |
| Skin irritation                       | No data available.                                                                                                                                |
| Eye irritation                        | No data available.                                                                                                                                |
| Sensitisation                         | No data available.                                                                                                                                |
| Mutagenicity                          | No data available.                                                                                                                                |
| Carcinogenicity                       | No data available.                                                                                                                                |
| IARC classification (carcinogenicity) | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| Reproductive toxicity                 | No data available.                                                                                                                                |
| STOT — single exposure                | No data available.                                                                                                                                |
| STOT — repeated exposure              | No data available.                                                                                                                                |
| Aspiration hazard                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                          |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | No data available.                                                                                                                                       |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                                       |
| <b>Bioaccumulative potential</b>       | log Kow = -2.9 <sup>[8]</sup> . Low bioaccumulation potential (log Kow < 4.5 — PBT/vPvB screening criterion per ECHA Guidance R.11). <sup>[10][11]</sup> |
| <b>Mobility in soil</b>                | No data available.                                                                                                                                       |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                                    |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                          |

## 13. Disposal considerations

|                         |                                                                                                                                                                                                                                                                                                      |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                                                                                                                                                                      |
| <b>Waste code (EWC)</b> | The waste code (EWC) cannot be determined without a hazard classification — the provenance of the classification has not been established. Do NOT assume either hazardousness (16 05 06*) or the absence thereof (16 05 09); determine it after verifying the classification in ECHA. <sup>[9]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be handled in accordance with the waste classification (see the EWC code above); where no classification has been established, do not assume the absence of hazard.                                                                   |

## 14. Transport information

|                             |                                                                                                                                                                                                                                                                                   |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>            | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                                                                                                                                |
| <b>Environmental hazard</b> | Environmental hazard for transport; not verified. Classification provenance undetermined — do NOT assume absence of environmental hazard or that marine pollutant marking is not required; verify against CLP Annex VI, Section 12 and ADR 2.2.9 / IMDG criteria before shipping. |
| <b>Special precautions</b>  | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                                                                                                                                       |
| <b>CN/HS code</b>           | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                                                                                                                                          |
| <b>Notes</b>                | Transport classification not verified. Do not assume the absence of restrictions — check ADR/IMDG/IATA before shipping.                                                                                                                                                           |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: provenance not recorded — requires verification in ECHA. Entries with an entry-into-force date after 03.09.2026 were omitted as future (not yet applicable).

**Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).**
