

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 03.09.2026 | Version: 1 | EN

## dimethyl-bis(prop-2-enyl)azanium chloride

dimethyl-bis(prop-2-enyl)azanium chloride

CAS 7398-69-8

 $C_8H_{16}ClN$ MOLAR MASS  
**161.67**

## HAZARD CLASSIFICATION (GHS / CLP)

## Warning

H412

Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).

## 1. Identification of the substance/mixture and of the company/undertaking

## 1.1 Substance name

—

## 1.1 IUPAC name

dimethyl-bis(prop-2-enyl)azanium chloride

## 1.1 CAS number

7398-69-8

## 1.1 EC number

No data

## 1.1 PubChem CID

33286

## 1.1 InChIKey

GQOKIYDTHHZSCJ-UHFFFAOYSA-M

## 1.1 SMILES

C[N+](C)(CC=C)CC=C.[Cl-]

## 1.1 Molecular formula

 $C_8H_{16}ClN$  <sup>[7]</sup>

## 1.1 Molar mass

161.67 g/mol <sup>[7]</sup>

## 1.1 Exact mass

161.0971 Da <sup>[7]</sup>

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION

Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH. MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

## Emergency telephone

112 (EU-wide emergency number)

The number above is the Polish poison centre (CIT, Lodz, 24/7). It is NOT the poison centre designated for your country. Under Article 45 of Regulation (EC) No 1272/2008 the competent body is the centre designated in the country of placing on the market — consult it before use.

## 2. Hazards identification

PPE:

### Warning

#### Hazard statements (H) <sup>[3][4]</sup>

**H412** Harmful to aquatic life with long lasting effects

#### Precautionary statements (P) <sup>[3][4]</sup>

**P273** Avoid release to the environment

**P391** Collect spillage

**P501** Dispose of contents/container to an approved waste collection point

Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).

## 3. Composition/information on ingredients

|                   |                                                                                       |
|-------------------|---------------------------------------------------------------------------------------|
| Substance type    | pure substance                                                                        |
| CAS Number        | 7398-69-8                                                                             |
| Molecular formula | C <sub>8</sub> H <sub>16</sub> ClN                                                    |
| Concentration     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

## 4. First aid measures

### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). <sup>[1][2][11]</sup>

### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). <sup>[1][2][11]</sup>

### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. If irritation persists — consult an ophthalmologist. <sup>[1][2][11]</sup>

### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. <sup>[1][2][11]</sup>

### Symptoms and effects

No specific symptoms described in the literature. <sup>[3]</sup>

### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

## 5. Firefighting measures

|                                       |                                                                                                                  |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam.                                   |
| <b>Unsuitable extinguishing media</b> | No specific restrictions.                                                                                        |
| <b>Specific hazards</b>               | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> , HCl (hydrogen chloride). <sup>[12]</sup> |
| <b>Advice for firefighters</b>        | Use self-contained breathing apparatus (SCBA). Full protective suit.                                             |
| <b>Auto-ignition temperature</b>      | 200°C <sup>[7]</sup>                                                                                             |

## 6. Accidental release measures

|                                                |                                                                                                                                                                    |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                    | Use personal protective equipment (see Section 8). Avoid breathing dust/vapours. <sup>[1][2][11]</sup>                                                             |
| <b>Environmental precautions</b>               | Prevent entry into sewers, groundwater and surface water. <sup>[1][2][11]</sup>                                                                                    |
| <b>Methods for containment and cleaning up</b> | Absorb with inert material (sand, vermiculite, diatomaceous earth) and collect into sealed, labelled containers. Do not release into drains. <sup>[1][2][11]</sup> |
| <b>Related sections</b>                        | 8; 13                                                                                                                                                              |

## 7. Handling and storage

|                               |                                                                                                                          |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions</b>            | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <sup>[1][2][11]</sup> |
| <b>Storage temperature</b>    | Store at room temperature (15-25°C) or as indicated on the label. <sup>[1][2][11]</sup>                                  |
| <b>Humidity</b>               | Store in a dry place (<60% RH). <sup>[1][2][11]</sup>                                                                    |
| <b>Light</b>                  | Protect from direct sunlight. <sup>[1][2][11]</sup>                                                                      |
| <b>Incompatible materials</b> | Strong oxidizers. <sup>[12]</sup>                                                                                        |

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                           |                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>OEL — NDS (Poland)</b> | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| <b>OEL (EU)</b>           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| <b>DNEL</b>               | No data available.                                                                                                                                 |
| <b>PNEC</b>               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE) <sup>[5][6][13]</sup>

#### Chemical-resistant protective gloves

EN ISO 374-1:2016+A1:2018  
fluoroelastomer FKM  
(Viton), min. 0.4 mm — NOT  
nitrile (breakthrough  
within minutes)

#### Closed safety spectacles or goggles

EN ISO 16321-1:2022 / EN  
166:2001

#### Closed safety footwear with toe protection

EN ISO 20345:2022 (S2/S3)

## 9. Physical and chemical properties

| Property (item 9.1)             | Value                                                    | Source |
|---------------------------------|----------------------------------------------------------|--------|
| Physical state                  | No data available.                                       |        |
| Colour                          | No data available.                                       |        |
| Odour                           | No data available.                                       |        |
| pH (1% aqueous solution)        | No data available.                                       |        |
| Melting point                   | No data available.                                       |        |
| Boiling point                   | No data available.                                       |        |
| Flash point                     | No data available.                                       |        |
| Flammability                    | No data available.                                       |        |
| Lower and upper explosion limit | No data available.                                       |        |
| Density (20°C)                  | No data available.                                       |        |
| Vapour pressure                 | 0 kPa (0.000004 mmHg) (experimental data) <sup>[7]</sup> |        |
| Relative vapour density         | No data available.                                       |        |
| Kinematic viscosity             | No data available.                                       |        |
| Auto-ignition temperature       | 200°C (experimental data) <sup>[7]</sup>                 |        |
| Decomposition temperature       | Not applicable                                           |        |
| Rozpuszcz. w wodzie             | No data available.                                       |        |
| Particle characteristics        | No data available.                                       |        |
| log Kow (XLogP3)                | No data available.                                       |        |
| Molar mass                      | 161.67 g/mol <sup>[7]</sup>                              |        |
| Molecular formula               | C <sub>8</sub> H <sub>16</sub> ClN <sup>[7]</sup>        |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| Reactivity             | Stable under normal storage and handling conditions.                                             |
| Chemical stability     | Thermally stable under recommended conditions.                                                   |
| Hazardous reactions    | No hazardous reactions known under normal conditions.                                            |
| Conditions to avoid    | High temperatures, direct sunlight, moisture.                                                    |
| Incompatible materials | Strong oxidizers.                                                                                |
| Decomposition products | Thermal decomposition products: CO, CO <sub>2</sub> , NO <sub>x</sub> , HCl (hydrogen chloride). |

## 11. Toxicological information

|                   |                    |
|-------------------|--------------------|
| LD50 (oral)       | No data available. |
| LD50 (dermal)     | No data available. |
| LC50 (inhalation) | No data available. |
| Skin irritation   | No data available. |
| Eye irritation    | No data available. |

|                                              |                                                                                                                                                   |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sensitisation</b>                         | No data available.                                                                                                                                |
| <b>Mutagenicity</b>                          | No data available.                                                                                                                                |
| <b>Carcinogenicity</b>                       | No data available.                                                                                                                                |
| <b>IARC classification (carcinogenicity)</b> | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| <b>Reproductive toxicity</b>                 | No data available.                                                                                                                                |
| <b>STOT — single exposure</b>                | No data available.                                                                                                                                |
| <b>STOT — repeated exposure</b>              | No data available.                                                                                                                                |
| <b>Aspiration hazard</b>                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                                                                                                          |
|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | Classification per ECHA C&L notifications (self-classification, Art. 4(3)): H412 — Harmful to aquatic life with long lasting effects (Aquatic Chronic 3). LC <sub>50</sub> (fish): 0.64 mg/L (Oncorhynchus mykiss, 48 h) <sup>[14]</sup> |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                                                                                                                       |
| <b>Bioaccumulative potential</b>       | No data available.                                                                                                                                                                                                                       |
| <b>Mobility in soil</b>                | No data available.                                                                                                                                                                                                                       |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                                                                                                                    |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                                                                                                          |

## 13. Disposal considerations

|                         |                                                                                                                                                               |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                               |
| <b>Waste code (EWC)</b> | 16 05 06* — Laboratory and analytical chemicals (np. chemical reagents) zawierające substancje niebezpieczne. EWC code verification required. <sup>[10]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be treated as hazardous waste.                                                                 |

## 14. Transport information

|                             |                                                                                                                                                                                                                                                         |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>            | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                                                                                                      |
| <b>Environmental hazard</b> | Environmental hazard for transport: not verified. Non-harmonised classification (outside CLP Annex VI) — verify aquatic toxicity (Section 12) and do NOT assume marine pollutant marking is not required; confirm per ADR 2.2.9 / IMDG before shipping. |
| <b>Special precautions</b>  | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                                                                                                             |
| <b>CN/HS code</b>           | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                                                                                                                |
| <b>Notes</b>                | Transport classification not verified. Do not assume the absence of restrictions — check ADR/IMDG/IATA before shipping.                                                                                                                                 |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: supplier self-classification under Art. 4(3) CLP — no harmonised entry in Annex VI. Entries with an entry-into-force date after 03.09.2026 were omitted as future (not yet applicable).

Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).

### Full text of H statements

**H412** Harmful to aquatic life with long lasting effects

### Full text of P statements

**P273** Avoid release to the environment

**P391** Collect spillage

**P501** Dispose of contents/container to an approved waste collection point

### Abbreviations

|              |                                                                                            |
