

## SAFETY DATA SHEET (SDS)

in accordance with Regulation (EC) No 1907/2006 (REACH), Annex II — Regulation (EU) 2020/878

Date: 03.09.2026 | Version: 1 | EN

## cesium iodide

cesium iodide

CAS 7789-17-5

CsI

MOLAR MASS  
259.81

## HAZARD CLASSIFICATION (GHS / CLP)

Danger

H315 H317 H319 H335 H400

Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).

## 1. Identification of the substance/mixture and of the company/undertaking

## 1.1 Substance name

## 1.1 IUPAC name

cesium iodide

## 1.1 CAS number

7789-17-5

## 1.1 EC number

No data

## 1.1 PubChem CID

24601

## 1.1 InChIKey

XQPRBTXUXXVTKB-UHFFFAOYSA-M

## 1.1 SMILES

[I-].[Cs+]

## 1.1 Molecular formula

CsI <sup>[7]</sup>

## 1.1 Molar mass

259.8099 g/mol <sup>[7]</sup>

## 1.1 Exact mass

259.8099 Da <sup>[7]</sup>

## 1.2 Uses

For laboratory and research purposes. Not for use in the production of food, medicines or cosmetics without appropriate authorisation.

## 1.3 Details of the supplier

REFERENCE COPY — NO  
SUPPLIER DETAILS — NOT FOR  
DISTRIBUTION

Supplier details are not included in this reference copy. The supplier placing the substance on the market must complete this section and remains responsible for the sheet under REACH. MolGod.org prepares documentation and is not the supplier of this substance.

## 1.4 Emergency telephone number

## Emergency telephone

112 (EU-wide emergency number)

## 2. Hazards identification

**Danger**

### Hazard statements (H) <sup>[3][4]</sup>

|             |                                     |
|-------------|-------------------------------------|
| <b>H315</b> | Causes skin irritation              |
| <b>H317</b> | May cause an allergic skin reaction |
| <b>H319</b> | Causes serious eye irritation       |
| <b>H335</b> | May cause respiratory irritation    |
| <b>H400</b> | Very toxic to aquatic life          |

### Precautionary statements (P) <sup>[3][4]</sup>

|                       |                                                                                                                                 |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>P261</b>           | Avoid breathing dust/fume/gas/mist/vapours/spray                                                                                |
| <b>P264</b>           | Wash thoroughly after handling                                                                                                  |
| <b>P271</b>           | Use only outdoors or in a well-ventilated area                                                                                  |
| <b>P272</b>           | Contaminated work clothing should not be allowed out of the workplace                                                           |
| <b>P273</b>           | Avoid release to the environment                                                                                                |
| <b>P280</b>           | Wear protective gloves/protective clothing/eye protection/face protection                                                       |
| <b>P302+P352</b>      | IF ON SKIN: Wash with plenty of water                                                                                           |
| <b>P304+P340</b>      | IF INHALED: Remove person to fresh air and keep comfortable for breathing                                                       |
| <b>P305+P351+P338</b> | IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing |
| <b>P312</b>           | Call a POISON CENTER or doctor/physician if you feel unwell                                                                     |
| <b>P321</b>           | Specific treatment                                                                                                              |
| <b>P332+P313</b>      | If skin irritation occurs: Get medical advice/attention                                                                         |
| <b>P333+P313</b>      | If skin irritation or rash occurs: Get medical advice/attention                                                                 |
| <b>P337+P313</b>      | If eye irritation persists: Get medical advice/attention                                                                        |
| <b>P362+P364</b>      | Take off contaminated clothing                                                                                                  |
| <b>P391</b>           | Collect spillage                                                                                                                |
| <b>P403+P233</b>      | Store in a well-ventilated place: Keep container tightly closed                                                                 |
| <b>P405</b>           | Store locked up                                                                                                                 |
| <b>P501</b>           | Dispose of contents/container to an approved waste collection point                                                             |

**Classification from aggregated ECHA C&L notifications (PubChem PUG-View); notifier consensus <75% — protective approach (all reported hazards). Requires verification against the official source (ECHA C&L / manufacturer's data sheet).**

### 3. Composition/information on ingredients

|                          |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| <b>Substance type</b>    | pure substance                                                                        |
| <b>CAS Number</b>        | 7789-17-5                                                                             |
| <b>Molecular formula</b> | CsI                                                                                   |
| <b>Concentration</b>     | ≥99% (typical reagent-grade purity — to be confirmed by the supplier's specification) |

### 4. First aid measures

#### Inhalation

Move the affected person to fresh air. Keep at rest. If not breathing: artificial respiration (qualified personnel only). <sup>[1][2][10]</sup>

#### Skin contact

Remove contaminated clothing. Rinse skin with soap and water (min. 15 minutes). <sup>[1][2][10]</sup>

#### Eye contact

Rinse eyes with running water (min. 15 minutes). Remove contact lenses if possible. If irritation persists — consult an ophthalmologist. <sup>[1][2][10]</sup>

#### Ingestion

Do NOT induce vomiting (unless directed by a physician). Rinse mouth with water. Never give anything by mouth to an unconscious person. Poison Centre Łódź: +48 42 631 47 24 (24/7). Emergency number: 112. <sup>[1][2][10]</sup>

#### Symptoms and effects

cough, shortness of breath, headache, dizziness; skin redness and irritation; eye irritation and watering. <sup>[3]</sup>

#### Notes for physician

Requires verification

**Emergency numbers: CIT Łódź: +48 42 631 47 24 (24/7) | Emergency: 112**

### 5. Firefighting measures

|                                       |                                                                                |
|---------------------------------------|--------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Adapt extinguishing media to surroundings. CO <sub>2</sub> , dry powder, foam. |
| <b>Unsuitable extinguishing media</b> | No specific restrictions.                                                      |
| <b>Specific hazards</b>               | No data on decomposition products. <sup>[11]</sup>                             |
| <b>Advice for firefighters</b>        | Use self-contained breathing apparatus (SCBA). Full protective suit.           |

### 6. Accidental release measures

|                                                |                                                                                                                                                            |
|------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                    | Use personal protective equipment (see Section 8). Avoid breathing dust. <sup>[1][2][10]</sup>                                                             |
| <b>Environmental precautions</b>               | Prevent entry into sewers, groundwater and surface water. <sup>[1][2][10]</sup>                                                                            |
| <b>Methods for containment and cleaning up</b> | Collect mechanically into suitable containers. Absorption: sand, vermiculite, diatomaceous earth. Do not sweep dry (dust formation). <sup>[1][2][10]</sup> |
| <b>Related sections</b>                        | 8; 13                                                                                                                                                      |

### 7. Handling and storage

|                            |                                                                                                                          |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions</b>         | Work in a fume hood or with adequate ventilation. No eating, drinking or smoking in the work area. <sup>[1][2][10]</sup> |
| <b>Storage temperature</b> | Store at room temperature (15-25°C) or as indicated on the label. <sup>[1][2][10]</sup>                                  |
| <b>Humidity</b>            | Store in a dry place (<60% RH). <sup>[1][2][10]</sup>                                                                    |

**Light**

Protect from direct sunlight. [1][2][10]

**Incompatible materials**

Strong oxidizers, strong acids, strong bases. [11]

## 8. Exposure controls/personal protection

### 8.1 Control parameters

|                           |                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>OEL — NDS (Poland)</b> | No NDS (OEL) value in the available working list — verify in the current MRPiPS regulation before use; do not assume the absence of a limit value. |
| <b>OEL (EU)</b>           | The EU OEL value has not been verified against the available dataset — check the IOELV/BOELV directives; do not assume the absence of a value.     |
| <b>DNEL</b>               | No data available.                                                                                                                                 |
| <b>PNEC</b>               | No data available.                                                                                                                                 |

### 8.2 Personal protective equipment (PPE) [5][6][12]

|                                                                                                                                                                                         |                                                                                                                                                                      |                                                                                                                                                                            |                                                                                                                                                                      |

## 9. Physical and chemical properties

| Property (item 9.1)                    | Value                          | Source |
|----------------------------------------|--------------------------------|--------|
| <b>Physical state</b>                  | Solid                          |        |
| <b>Colour</b>                          | No data available.             |        |
| <b>Odour</b>                           | No data available.             |        |
| <b>pH (1% aqueous solution)</b>        | No data available.             |        |
| <b>Melting point</b>                   | 632°C (experimental data) [7]  |        |
| <b>Boiling point</b>                   | 1280°C (experimental data) [7] |        |
| <b>Flash point</b>                     | Not applicable (REACH 9.1(h))  |        |
| <b>Flammability</b>                    | No data available.             |        |
| <b>Lower and upper explosion limit</b> | Not applicable (REACH 9.1(g))  |        |
| <b>Density (20°C)</b>                  | 4.51 g/cm <sup>3</sup> [7]     |        |
| <b>Vapour pressure</b>                 | No data available.             |        |
| <b>Relative vapour density</b>         | Not applicable (REACH 9.1(q))  |        |
| <b>Kinematic viscosity</b>             | Not applicable (REACH 9.1(l))  |        |
| <b>Auto-ignition temperature</b>       | No data available.             |        |
| <b>Decomposition temperature</b>       | Not applicable                 |        |
| <b>Rozpuszcz. w wodzie</b>             | No data available.             |        |

| Property (item 9.1)             | Value                                                                                                                                                                | Source |
|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| <b>Particle characteristics</b> | The particle size distribution has not been determined for this commercial form – required under Annex II 9.1(r); to be completed from the supplier's specification. |        |
| <b>log Kow (XLogP3)</b>         | Not applicable (REACH 9.1(n))                                                                                                                                        |        |
| <b>Molar mass</b>               | 259.8099 g/mol <sup>[7]</sup>                                                                                                                                        |        |
| <b>Molecular formula</b>        | CsI <sup>[7]</sup>                                                                                                                                                   |        |

Where a property above reads "No data available", no measured value was found in the public sources consulted for this substance. The property has not been determined by MolGod.org and no value is inferred. "Not applicable" means the property has no meaning for this substance in the form supplied.

## 10. Stability and reactivity

|                               |                                                       |
|-------------------------------|-------------------------------------------------------|
| <b>Reactivity</b>             | Stable under normal storage and handling conditions.  |
| <b>Chemical stability</b>     | Thermally stable under recommended conditions.        |
| <b>Hazardous reactions</b>    | No hazardous reactions known under normal conditions. |
| <b>Conditions to avoid</b>    | High temperatures, direct sunlight, moisture.         |
| <b>Incompatible materials</b> | Strong oxidizers, strong acids, strong bases.         |
| <b>Decomposition products</b> | No data on decomposition products.                    |

## 11. Toxicological information

|                                              |                                                                                                                                                   |
|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>LD50 (oral)</b>                           | No data available.                                                                                                                                |
| <b>LD50 (dermal)</b>                         | No data available.                                                                                                                                |
| <b>LC50 (inhalation)</b>                     | No data available.                                                                                                                                |
| <b>Skin irritation</b>                       | Category 2 — skin irritation.                                                                                                                     |
| <b>Eye irritation</b>                        | Category 2 — eye irritation.                                                                                                                      |
| <b>Sensitisation</b>                         | Skin, Category 1 (H317): May cause an allergic skin reaction. <sup>[3]</sup>                                                                      |
| <b>Mutagenicity</b>                          | No data available.                                                                                                                                |
| <b>Carcinogenicity</b>                       | No data available.                                                                                                                                |
| <b>IARC classification (carcinogenicity)</b> | No individual IARC monograph for this CAS — this is not confirmation of the absence of carcinogenicity (cf. CLP/GHS classification in section 2). |
| <b>Reproductive toxicity</b>                 | No data available.                                                                                                                                |
| <b>STOT — single exposure</b>                | Category 3 (H335): May cause respiratory irritation. <sup>[3]</sup>                                                                               |
| <b>STOT — repeated exposure</b>              | No data available.                                                                                                                                |
| <b>Aspiration hazard</b>                     | No data available.                                                                                                                                |

## 12. Ecological information

|                                        |                                                                                                                                                                                                                                                             |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Aquatic toxicity</b>                | Classification per ECHA C&L notifications (self-classification, Art. 4(3)): H400 — Very toxic to aquatic life (Aquatic Acute 1). Numerical LC <sub>50</sub> /EC <sub>50</sub> data unverified in the available dataset — do not assume absence of toxicity. |
| <b>Persistence / biodegradability</b>  | No data available.                                                                                                                                                                                                                                          |
| <b>Bioaccumulative potential</b>       | No data available.                                                                                                                                                                                                                                          |
| <b>Mobility in soil</b>                | No data available.                                                                                                                                                                                                                                          |
| <b>PBT/vPvB assessment</b>             | Insufficient data to assess PBT/vPvB.                                                                                                                                                                                                                       |
| <b>Endocrine disrupting properties</b> | No information.                                                                                                                                                                                                                                             |

## 13. Disposal considerations

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Disposal method</b>  | Hand over for disposal to licensed contractors in accordance with national and local regulations. Do not discharge into sewers.                              |
| <b>Waste code (EWC)</b> | 16 05 06* — Laboratory and analytical chemicals (np. chemical reagents) zawierające substancje niebezpieczne. EWC code verification required. <sup>[9]</sup> |
| <b>Packaging</b>        | Cleaned packaging may be recycled. Contaminated packaging must be treated as hazardous waste.                                                                |

## 14. Transport information

|                                                        |                                                                                                                                                                   |
|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>UN number</b>                                       | VERIFICATION REQUIRED — no verified UN assignment.                                                                                                                |
| <b>Environmental hazard</b>                            | CLP classification (H400) indicates aquatic environmental hazard — marine pollutant marking may be required; confirm per ADR 2.2.9 / IMDG criteria <sup>[3]</sup> |
| <b>Special precautions</b>                             | Handle as dangerous goods according to the assigned class (ADR/IMDG/IATA); apply the precautions appropriate to that class.                                       |
| <b>CN/HS code</b>                                      | CN/HS code: verification required in the Eurostat Combined Nomenclature.                                                                                          |
| <b>Notes</b>                                           | Transport classification not verified. Do not assume the absence of restrictions — check ADR/IMDG/IATA before shipping.                                           |
| <b>Environmentally hazardous (mark: fish and tree)</b> | Yes                                                                                                                                                               |

## 15. Regulatory information

|                         |                                                                                                                                                                             |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SVHC status</b>      | SVHC status not verified against the available dataset — check the current ECHA Candidate List; do not assume absence. <sup>[1]</sup>                                       |
| <b>REACH Annex XIV</b>  | Not verified against the ECHA Authorisation List — check REACH Annex XIV. <sup>[1]</sup>                                                                                    |
| <b>REACH Annex XVII</b> | Not confirmed in the available Annex XVII dataset — verify against the current ECHA list before placing on the market; do not assume absence of restriction. <sup>[1]</sup> |

## 16. Other information

Legal status of classification: supplier self-classification under Art. 4(3) CLP — no harmonised entry in Annex VI. Entries with an entry-into-force date after 03.09.2026 were omitted as future (not yet applicable).

Data aggregated automatically from public reference databases (PubChem, ECHA, NIST and others).

| <b>P280</b>           | Wear protective gloves/protective clothing/eye protection/face protection                                                       |
| <b>P302+P352</b>      | IF ON SKIN: Wash with plenty of water                                                                                           |
| <b>P304+P340</b>      | IF INHALED: Remove person to fresh air and keep comfortable for breathing                                                       |
| <b>P305+P351+P338</b> | IF IN EYES: Rinse cautiously with water for several minutes; Remove contact lenses, if present and easy to do. Continue rinsing |
| <b>P312</b>           | Call a POISON CENTER or doctor/physician if you feel unwell                                                                     |
| <b>P321</b>           | Specific treatment                                                                                                              |
| <b>P332+P313</b>      | If skin irritation occurs: Get medical advice/attention                                                                         |
| <b>P333+P313</b>      | If skin irritation or rash occurs: Get medical advice/attention                                                                 |
| <b>P337+P313</b>      | If eye irritation persists: Get medical advice/attention                                                                        |
| <b>P362+P364</b>      | Take off contaminated clothing                                                                                                  |
| <b>P391</b>           | Collect spillage                                                                                                                |
| <b>P403+P233</b>      | Store in a well-ventilated place: Keep container tightly closed                                                                 |
| <b>P405</b>           | Store locked up                                                                                                                 |
| <b>P501</b>           | Dispose of contents/container to an approved waste collection point                                                             |

## Abbreviations

|             |                                                                                     |
|-------------|-------------------------------------------------------------------------------------|
| <b>ADR</b>  | European Agreement concerning the International Carriage of Dangerous Goods by Road |
| <b>ATE</b>  | Acute Toxicity Estimate                                                             |
| <b>CAS</b>  | Chemical Abstracts Service                                                          |
| <b>CLP</b>  | Classification, Labelling and Packaging (Reg. (EC) 1272/2008)                       |
| <b>CMR</b>  | Carcinogenic, Mutagenic, toxic to Reproduction                                      |
| <b>DNEL</b> | Derived No-Effect Level                                                             |
| <b>EC</b>   | European Community number                                                           |
| <b>EPI</b>  | Personal protective equipment                                                       |
| <b>GHS</b>  | Globally Harmonized System                                                          |
| <b>IATA</b> | International Air Transport Association                                             |
| <b>IMDG</b> | International Maritime Dangerous Goods Code                                         |
| <b>SDS</b>  | Safety Data Sheet                                                                   |
| <b>LC50</b> | Lethal Concentration, 50%                                                           |
| <b>LD50</b> | Lethal Dose, 50%                                                                    |

|              |                                                                                            |
|--------------|--------------------------------------------------------------------------------------------|
| <b>NDS</b>   | Maximum admissible concentration (workplace, PL)                                           |
| <b>NDSch</b> | Short-term exposure limit (PL)                                                             |
| <b>OEL</b>   | Occupational Exposure Limit                                                                |
| <b>PBT</b>   | Persistent, Bioaccumulative and Toxic                                                      |
| <b>PNEC</b>  | Predicted No-Effect Concentration                                                          |
| <b>REACH</b> | Registration, Evaluation, Authorisation and Restriction of Chemicals (Reg. (EC) 1907/2006) |
| <b>STOT</b>  | Specific Target Organ Toxicity                                                             |
| <b>SVHC</b>  | Substance of Very High Concern                                                             |
| <b>TPSA</b>  | Topological Polar Surface Area                                                             |
| <b>vPvB</b>  | very Persistent and very Bioaccumulative                                                   |

#### Version history

|                        |                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------|
| <b>v1 (03.09.2026)</b> | Based on supplier self-classification (ECHA C&L notifications; no harmonised entry in Annex VI). |
